In reviewing this guide it was very gratifying to learn that the instruction given by this faculty is in line with the requirements that the Inspection and Review Staff has drawn up as a guide and check list for their inspections.

2. [redacted] of the PP Staff has made available to us a rough draft of the new organizational changes of that Staff.

3. Attached is a memorandum received today from the Office of Logistics. [redacted] is providing instruction for the Logistics team going to the field to initiate the Type II Field Property Records.

4. We are going into the fifth week with a ^{worn-out fixture} burned-out light above [redacted] in our classroom. (See Weekly Report No. 43)

[redacted] had not personally been informed of this. He got right on it with promptness he customarily has in all matters he deals with personally, and the trouble is being repaired.

[redacted]

This is the kind of request we prefer to receive thru channels, incl. particularly ITR. Time did not allow [redacted] to do the job.
